

Introducing TELUS Fibre

The benefits of 100% fibre.

TELUS Fibre is a new network made from flexible, transparent fibres of glass that transmit data as pulses of light. These fibres allow large amounts of information to be sent to your **home** or **business** at close to the speed of light. Connecting directly to 100% fibre means you and your family will have access to the best TELUS offers now and into the future.¹

Access to the fibre network will also give local businesses the speed they need to operate locally and compete globally. Plus, local service providers, like healthcare and educational organizations, will be able to innovate on how they deliver services to your **community**.

Once connected, you'll be part of a growing number of Canadians with 100% fibre connected directly to the home.

A 100% fibre connection

- Connects directly from our network to your home.
- Gives you our fastest download (up to 150 Mbps) and upload speeds (up to 30 Mbps) to date.²
- Gives you our most reliable and consistent connection possible.
- Gigabit enabled for faster speeds in the future.

Representative's name

Phone number

¹ Traditional copper wire or copper wire hybrid networks are subject to capacity constraints and environmental stresses that do not affect TELUS fibre optic technology, which is based on light signals.

² Not available in all areas. Internet access speeds may vary depending on location, usage within the home network, Internet traffic, applicable network management or server configurations. For a description of TELUS's network management practices, please see telus.com/networkmanagement.

³ Based on a medium-sized structure using standard building materials. Wi-Fi signal reception may vary based on the number of active Wi-Fi devices and available Wi-Fi signals. A Wi-Fi extender may be required for full coverage, charged separately.

⁴ The right to use TELUS Cloud service begins when you order, install and activate the service, and you accept the TELUS Cloud User Terms. If you cancel your TELUS High Speed Internet service or the TELUS Cloud and Norton Security Online service, you will no longer be eligible to access TELUS Cloud. Your content may be stored on servers located in Canada or another country.

⁵ The right to use the applicable Norton product on the specified number of devices begins when you order, install and activate the product, and you accept the Norton License Agreement included with the applicable product, which is also available for review at symantec.com. Norton Security Online includes protection updates and/or new product features as available. If you cancel your TELUS High Speed Internet service or the TELUS Cloud and Norton Security Online service, you will no longer be eligible to use the applicable Norton product. Norton Security Online features may be added, modified, or removed with or without notice from Symantec.

⁶ Access point provides wireless connections for up to 4 wireless digital boxes. Component cables (included) are used to connect each digital box to a TV. Wireless signal range will vary and can be affected by conditions in the home, including interference from other electronic devices and the materials used in construction. Adequate signal transmission is required within the home and will be tested by a TELUS representative before installation.

⁷ Streaming membership required; charged separately.

⁸ Subscription to corresponding channels required; not available with all channels.

The future has arrived.

Our 100% fibre optic network connects you to a network that's gigabit enabled giving you all the Internet speeds you need now and into the future.

Information at the speed of light.

Experience our fastest, most reliable Internet and the most Wi-Fi® coverage throughout your home. You'll be able to download a full music album in 5 seconds flat, video chat with your loved ones like you're in the same room, and watch streaming video in ultra-HD quality. All Internet plans include:

- **Built-in Wi-Fi** – Surf from anywhere in your home.
- **TELUS Mail** – Send messages up to 25 MB each and store up to 5 GB, in addition to setting up your calendar, email forwarding, and auto replies.

Customized Internet

Choose these Internet add-ons to amp up and secure your online experience:

- **TELUS Wi-Fi Plus³** – Get the most Wi-Fi coverage in your home and enjoy a fast, consistent connection, no matter which room you're in.
- **TELUS Cloud⁴ and Norton Security Basic Online⁵** – Store, sync and share your digital content online with TELUS Cloud. Protect your devices and everyone in your household from online threats with Norton Security Online.
- **Tech Support Plus** – Get 24/7 support to help tackle upgrades, complex fixes, and security issues, maximizing your high-speed experience.

Experience the future of TV with Optik.

Optik TV™ gives you more control and more choice to enjoy your entertainment, your way. Now you can watch TV anytime, anywhere and on any device.

Entertainment your way

Customize your lineup with more of the channels you love, and less of the ones you don't. Choose from more than 20 theme packs and several individual channels to customize your entertainment experience.

Whole Home PVR

Enjoy Optik from any TV in your home with a digital box. Pause a show in one room and continue watching in another, record up to 4 shows at once, pause and rewind live TV, and record up to 200 hours of your favourite shows.⁶

NETFLIX

Enjoy direct access to Netflix⁷ on any TV in your home through Optik. Instantly watch thousands of TV shows, movies, and award-winning original programming, including *House of Cards* and *Orange Is the New Black*.

The most On Demand content

Optik TV has the biggest selection of HD family channels and over 15,000 HD titles.⁸ Plus, with On Demand recommendations, you can spend more time watching and less time searching.

Visit your local **TELUS store** or telus.com/fibre or call **1-855-595-5588**.
